## DEEP HARBOR CONVENTION.

A great business convention of delegates from the States and Territories west of the Mississippi river has been called by the Governor of Colorado to meet in Denver, August 28th.

The purposes of the Convention is to interest all that country west of the Mississippi in the establishment of a deep water port or ports on the Texas coast that shall give the commerce of this great territory an outlet to the markets of the world by the shortest, most direct and cheapest route. It will be the most important commercial convention ever held in the Great West, and of vital interest to every farmer, miner, property owner and business man of two-thirds of the territory of the United States. Cheap transportation from and to all Eastern markets, as well as direct communication with the markets of Europe and Central and South America, is demanded by our growing population and increasing products of the farm, shop and mine. The only difficulty at present is the fact that while the sea—the great economic pathway of commerce, that the West wants to reach—is near, yet deep-draught vessels cannot get close enough in shore to take away the products that the country wants to ship. The object, then, of this Interstate Deep Harbor Convention is to interest and unite the people of the West in the effort to secure a deep-water port that shall admit our imports and take away our products at the lowest possible cost. With a deep harbor on the Texas coast fully thirty per cent. in freightage will be saved, amounting to millions of dollars annually on the products of the soil, the output of mines and our incoming merchandise. The subject of storage reservoirs for reclaiming by irrigation millions of acres of public lands now valueless, and other commercial topics, will also be presented for deliberation.

The JOURNAL has not heard that Governor Stevenson has appointed delegates to represent Nevada, but this State should be represented at the Convention.

The finish in a race is often very exciting, and the owner of the second horse, if the event is won by a short nose, invariably protests against the decision of the judges. There will be no more discussion on this point, for every finish at the Brooklyn Jockey Club track will be photographed by the instantaneous process hereafter. This action on the part of this young and enterprising association will undoubtedly meet with favor from the patrons of the turf, and it is only a question of time when all the first-class racing associations of the country will adopt the same methods.

My friends, you will never have any reform in civil service until you adopt the one-term principle in reference to the Presidency. So long as the incumbent can hope for a second term he will use the immense patronage of the Government to procure his re-nomination and secure his re-election.—From a speech by the Hon. Allen G. Thurman, Columbus, Ohio, 1872.

Ex-Senator Mahone claims that Virginia will give 20,000 Republican majority this Fall. The enthusiastic Virginia Republican is probably too sanguine. Sagacious leaders of the party expect no help from the Solid South.

"Red-headed girls," reports the New York Mail and Express, "are so plenty at Atlantic City this season, that at bathing time one might fancy the sea to be sprinkled with big red strawberries."

Stephen B. Elkins, declining to run for Congress in West Virginia, says when he retired from Congress he determined never to accept political office again.

The Idaho Democratic platform opposes the segregation of the Territory, and favors Statehood.

The Solid South is a Democratic rig. If it could get in we know very well they would make Jeff King.

## CHINESE EXCLUSION.

"Vindex" Answers Another Attack on the Federal Judges.

Editor Alta:—The circus clown does not jump into the sawdust ring with more agility than your sensational newspaper writer exhibits in his readiness to reiterate one of his manufactured stories. It matters not how false or unfounded, or how cruelly unjust to the parties implicated it may be, or how thoroughly refuted it has been by evidence conclusive and unanswerable, on he comes again to the assault with as much freshness, vigor and venom, as if he were engaged in a righteous and meritorious cause, and his statements were prompted by a love of justice and truth.

The latest illustration of this appears in the Morning Call of this day. In a communication which appeared in the Alta California on Tuesday last, the writer of this proved conclusively the injustice of the attacks on Judge Sawyer and other Federal Judges, respecting their opinion that the certificates as to "prior residence" did not apply to those Chinese who, residing in this country at the date of this treaty, November 17, 1882, departed before May 6, 1882, and remained out of the United States until after July 5, 1884. The writer in the Call instead of honestly admitting the villification or attempting to refute the facts and argument in that communication, still contends that "there were five black crows on the log." He cannot afford to notice the facts there stated or the additional fact that the Supreme Court of the United States affirmed the opinion of Judge Sawyer in the following striking language:

"What injustice could be more marked than, by legislative enactment, to recognize the existence of a right by treaty to come within the limits of the United States, and at the same time to prescribe as the only evidence permissible to establish it, the possession of a collector's certificate that could not possibly have been obtained by the person to whom the right belongs? Or to prevent the re-entry of a person into the United States upon the ground that he did not upon his arrival from a foreign port, produce a certain certificate, under the hand and seal of a Collector and upon forms prescribed by the Secretary of the Treasury, which neither that nor any other officer was authorized or permitted to give prior to the departure of such person from this country? Or what incongruity is more evident than to impose upon a Collector the duty of going on board of a vessel about to sail from his district for a foreign port and making and recording a list of its passengers of a particular race, showing their individual, family, and tribal names in full, their age, occupation, last place of residence, physical marks and peculiarities, when such vessel had sailed long before the law passed which imposed that duty on the Collector. These questions suggest the consequences that must result if it is held that Congress intended to abrogate the treaty with China, by imposing conditions upon the enjoyment of rights secured by it which are impossible of performance." [See U. S. Reports 112, p. 555.] Further comment is needless.

It is the writer in the Call did not know of this affirmation by the United States Supreme Court of Judge Sawyer's opinion, his ignorance is shameful and unpardonable; if he did know it, his persistent attacks are malicious in the extreme, and discreditable to the newspaper in which they are editorially published. There is no escaping either horn of the dilemma. Possibly Judge Sawyer may survive the vituperation, but can any newspaper afford to be its vehicle and maintain any reputation in the community? Vindex.

SAN FRANCISCO, August 23d.

Prior to the Chicago Convention General Harrison's front yard was covered with growing grass, and the brown picket fence inclosing his premises in Delaware street was a model of tidiness, but politics has sadly altered the appearance of the premises. The grass is worn off, leaving the earth exposed in spots, and the picket fence has piece by piece disappeared. Among the traveling men who visited the General last Saturday was a New York drummer who at some previous visit had helped himself to one of the heavy two inch square poplar fence pickets, which he proudly exhibited to the General and Mrs. Harrison in the form of a handsomely turned and polished walkingstick. The idea took with the thousand or more brother drummers, and that night the General's fence suffered the loss of many pickets. The sound ones were carefully culled. As the General gazed on the few remaining pickets the other morning and saw the lonely gate intact he ordered the remaining fragments to be taken down and used for kindlingwood.

The Republican speakers now in the field are: William Mason, of Chicago, who first started the idea of using the American flag as a campaign badge in opposition to the bandana; Julius C. Burrows, of Michigan; Gen. Cyrus Russey, of New York City; Gen. George Sheridan, ex-Congressman from Ohio, Congressman John D. Long, Judge Angel, ex-District Attorney Tenney, of Brooklyn; Governor Foraker, of Ohio; ex-Senator Warner Miller, James G. Blaine, of Maine, and others. They are constantly addressing meetings in Michigan, Indiana, New Jersey, Vermont, New York, Maine, Connecticut, and other Northern States.

James O'Brien, Democratic ex-Congressman and ex-State Senator of New York, says the Democratic party has outlived its usefulness, and does not deserve the support of those who believe in protecting American industries, American institutions, American principles, or the workmen's homes and their interests. He will vote for Harrison and Morton.

## WHAT WILL THE HARVEST BE.

Just Now We Are Garnering a Good Crop of Democratic Voters.

Fulton Caldwell, a prominent citizen and Democrat of Caldwell, O., has announced that he will vote for Harrison and Morton.

Samuel Mitchell, a well-known mill man, and John Dersam, a young hatter of McKeesport, Pa., have flocked to the Republican side.

In its issue of last Saturday the Lewiston (Me.) Journal printed the names of twenty-five Democratic farmers who are Democrats no longer.

The workmen of Kearney, N. J., have organized a Republican club of 200 members, forty of whom have hitherto voted the Democratic ticket.

E. J. Oarrie, President of an Irish Home Rule Club in New York, who has always voted the straight Democratic ticket, will this year take his Republicanism straight.

Jackson Murphy, a member of the grocery firm of Murphy Brothers, of Connersville, Ind., who has always been a Democrat, announces that he will vote for Harrison and Morton.

Henry Benedict, the well-known clothing manufacturer of Milwaukee, who for the last sixteen years has been an ardent Democrat, announces that he will vote the Republican ticket this Fall.

H. S. Marcy, Traffic Manager of the Delaware and Hudson railroad and a member of the historical Marcy family of New York, voted for Cleveland last time. This year he will vote for Harrison.

George W. Hall, the largest sheep-owner in Grafton, N. H., and a prominent Democrat, writes: "You may proclaim from the housetop that I shall not vote for Grover Cleveland, I would as soon vote for Jeff Davis!"

James Campbell, of Pittsburg, President of the Window-Glass Workers' Association of America, says that he was born and brought up a Democrat and looked in a hickory cradle, but he can't go the Democratic ticket this time.

Robert M. Olyphant, President of the Delaware and Hudson Canal Company, is one of the most conservative business men of New York City. He voted for Cleveland in 1884, but this year he will lend his vote and support to the Republican candidates.

The Rev. T. L. Paulson, D. D., of Virginia, who is one of the principal speakers at the temperance camps in New York, is out for Harrison and Morton and will vote for their election. He has been a strong prohibitionist, but can't go the third party and its candidate for Vice-President. Chaplain McCabe, Ellen J. Foster, J. N. Stearns and other well-known prohibitionists are also out for Harrison and Morton for the same reason.

Charles Finch, of Conitland, N. Y., brother of the late John B. Finch, who never voted anything but the Prohibition ticket, has come squarely out for Harrison. He says he has become convinced that the third party are at work mainly with vindictiveness for the purpose of defeating the Republican party, and that he can do more for temperance as a Republican than as a third party man.

## A Eureka Can. Bullion Thief.

ERNEKA, Nev., Aug. 24.—Charles W. Ladd, employed in the Eureka Can. refinery as head onepeler for the last eighteen months, who has been suspected of stealing rich silver bullion for some time past and shipping it by Wells, Fargo & Co. to a Chicago jeweler as mineral specimens, was arrested to-day. A box was opened and bullion marked "Eureka Can. Co." discovered. Ladd, when shown the bullion at the express office, confessed. He was held in jail under \$4,000 bonds to appear for examination. His reckless extravagance first led to the suspicion.

McKISSICK OPERA HOUSE.

The Farron Company in "Soap Bubble" To-Morrow Evening.

T. J. Farron and his excellent company of specialists will open at the Opera House to-morrow in "A Soap Bubble." There is not much in the play as a regular built play nor does any one much care about acts and scenes arranged by rule and square, provided plenty of fun be given. Of this performance in Sacramento last Wednesday night the Bee says: "Each member had some particular string of fun to pull, and they all pulled well. The real star of the piece was Ed. J. Connelly, who proved himself to be a comedian of far more than average ability and cleverness. He is protean in his versatility to a remarkable degree, and made really the great hit of the evening. He is far more capable of amusing an audience for a couple of hours than many who are now starring. Miss Dollie Foster has rather a weak voice, but what she lacks in this she makes up in 'taking' ways, and she soon became a great favorite with the gallery. Probably the most attractive part of the evening's performance was the staging of a number of varied songs and medleys by a quartet composed of Charles Sanders, E. J. Connelly, E. W. Rowland and E. H. Mack. It was something unique in its line, and fully deserved the plaudits showered upon it. There were other good points in the performance, but these were the principal features." The Bee further says that the orchestra furnished better music than is often heard in Sacramento.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is slow by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boche's German Syrup. It will give you immediate relief.

NEW ORLEANS, LA.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmers' English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmers' English Catarrh Cure for the cure of catarrh and deafness.

**Resolved,** That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places it in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

Resolved, That financial policy whereby both the people and the Government should be benefited.

Resolved, That all loans form the basis of credit

*Resolved*, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demanded silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

**Resolved,** That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand candid men who are true to justice to all the people.

*Resolved.* "That we are in favor of the protection of home industry, and that the laborers of this country have a right to the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will support the right of the people to the cheap labor of other lands."

*Resolved.* "That the policy of the Government should be inaugurated and established by the people through their representatives in Congress, and not by the President or the money trust, of which he, either a

*Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the marine services, with refusing to sign necessary bills for the improvement of rivers and harbors with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protection*

VI

Resolved, That we recognize the right of labor to organize for lawfully protection.

VII

Resolved, That we favor the submission to the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

VIII

We favor literal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the waste water may be preserved for the purpose of irrigation.

IX

We endorse the wise and cost effective administration of Governor O. S. Stewart, and we heartily commend the able efforts of Senator Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.

X

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

XII

It is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and in such a district the school money should be made as will furnish the means of education to all children, in the State.

## THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.
